- Supports the bony column, reduces stress to the laminae and wall, and reduces pressure to the joints and ligaments
- *Apoya la columna ósea, reduce la tensión en las láminas y la pared del casco, y reduce la presión sobre las articulaciones y los ligamentos.*

Vettec Equi-Pak

Cat. No.	UPC No.	Size (ml)	Weight Each
VT47121	615375011058	210	.70

■ For use as pad/packing material. Bonds directly onto the sole and frog, Equi-Pak™ is a liquid urethane that sets in 30 seconds. Can be used with or without a pad. Provides support and protection for thin soled, flat-footed horses, absorbs the shock and concussion. No hand mixing and no waste. Will not breakdown, impervious to debris and moisture.

■ Como uso de un material de almohadillas y relleno. Se pega directamente a la suela y ranilla, Equi-Pak es un liquido uretano que se pega en 30 segundos. Puede ser usado con o sin almohadilla. Da soporte y proteccion a caballos con suela finita y pies llanos, absorbe golpe. No tienes que mezclarlo con la mano y no botas producto. No se va a caer, no penetra escombros y humedad.

Vettec Equi-Pak Soft

Cat. No.	UPC No.	Size (ml)	Weight Each
VT47118	615375011041	210	.70

■ Handle those "sensitive situations" with Equi-PakSoft™. For use as pad/packing material. About 2X softer than regular Equi-Pak. Stays soft (even in cold temperatures). Strong bond to soles sealing out moisture and debris. Use with pads on working horses. Perfect for deep commissures and thin soles. Can be filled to ground level without a pad for lameness cases with limited turnout. Absorbs shock and concussion.

■ Manipula esas situaciones sensitivas con Equi-Pak Soft. Para uso con almohadillas y material de empaque. 2 veces mas suaves que Equi-Pak regular. Se queda suave (incluso en temperaturas frias). Se pega fuertemente a la suela bloqueando humedad y escombros, (mejor que siliconas). Usalo con almohadillas en caballos trabajadores.

Vettec Equi-Pak CS

Cat. No.	UPC No.	Size (ml)	Weight Each
VT47122	615375011072	210	.70

■ Infused with copper sulfate to effectively manage mild and moderate cases of thrush. For use as pad/packing material for Thrush. Can be used as a preventative measure during wet seasons. Bonds to the sole eliminating the need to pick out the feet and apply daily medication. Uniform support allows for faster, thicker hoof wall and sole growth. Provides same protection and support as original Equi-Pak.

■ Mezclado con sulfato de cobre para combatir casos de podridura de la ranilla. Puede usarlo para prevenir durante los meses de lluvia. Se pega a la suela, eliminando que tengas que aplicarlo diariamente. Soporte igual deja el casco mas fuerte y deja que la suela crezca. Provee la misma proteccion y soporte que el Equi-Pak original.

Vettec Sole-Guard

Cat. No.	UPC No.	Size (ml)	Weight Each
VT47160	615375011164	210	.70

■ Sole Guard is for use as pad/packing material. Apply directly to the sole and frog. Fast and convenient. Bonds to the foot for 2 weeks. Provides protection and support. Great for providing support for heavy, late term brood mares. Temporary protection for horses transitioning from shoes to barefoot. Can be used as a thin protective layer on the shod foot.

■ Sole Guard es para uso como material de almohadilla y empaque. Aplica directamente a la suela y la ranilla. Rapido y conveniente. Se pega al casco por 2 semanas. Provee proteccion y soporte. Bueno para darle soporte a lleguas preñadas. Preteccion temporaria para caballos que se estan transformando de herraduras a casco delcalzo. Puede ser usado como una capa finita en el casco herrado.

Vettec Adhere

Cat. No.	UPC No.	Size (ml)	Weight Each
VT47150	615375011126	210	.70

■ Fast-setting urethane adhesive designed to bond steel, aluminum and urethane shoes to the hoof and to fabricate large and small hoof wall repairs. For use as adhesive. 4 week average for glue-on urethane shoes. Initial set time of 1 minute and final cure time of 6 minutes. Perfect for most every hoof repair application. Adhere™ sets hard with a superior bond, but maintains the flexibility necessary at the quarters and heels to allow the natural movement of the hoof.

■ Un adhesivo uretano que se pega rapido a herraduras de acero, aluminio y uretano y para arreglar la pared del casco. Para uso como adhesivo. Mas o menos 4 semanas para herraduras uretano. Se toma 1 minuto cuando lo pones y se cura en 6 minutos mas o menos. Perfecto para casi todos los reparos del casco. Adhere se queda bien duro y con una pega superior, pero mantiene la felxibilidad necesitada al cuarto y talones para darle el movimiento natural del casco.

Vettec Super Fast

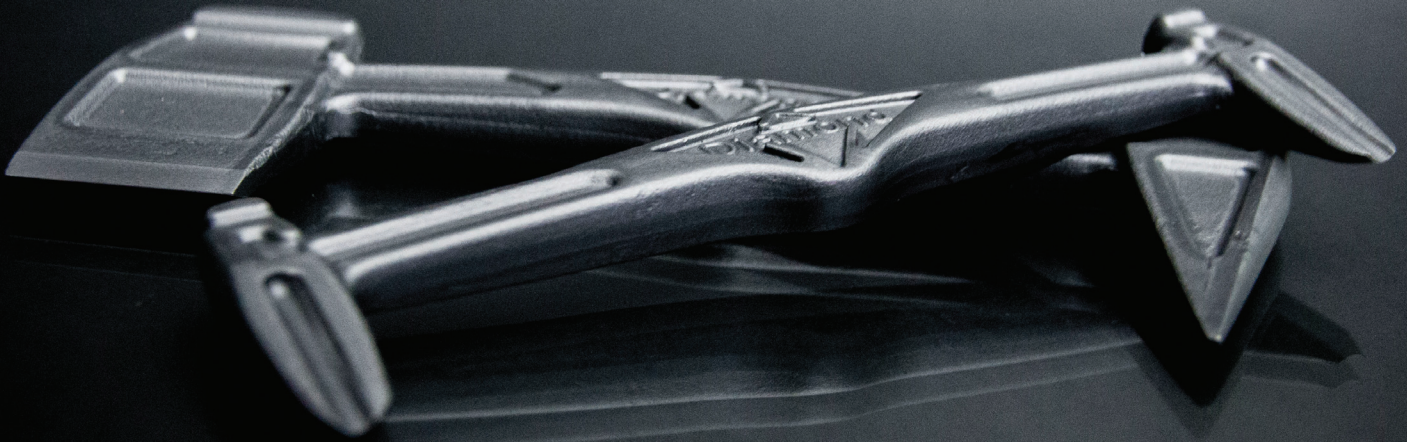

Cat. No.	UPC No.	Size (ml)	Weight Each
VT47140	615375011096	210	.70

■ Super Fast is used as adhesive or to build hoofwall. Create a custom shoe in minutes. Foal cuffs attached in seconds or custom made in minutes. Small hoof repairs and toe cracks completed quickly. Helps to hold thin, brittle hoof walls together.

■ Super Fast se usa como adhesivo o para reconstruir la pared del casco. Crea un zapato personalizado en minutos. Reparos pequeños y quebradas en el dedo son completadas rapido. Ayuda mantener el asco.
